EDITOR'S Letter

Welcome to BeautyMute the spirit and culture of the beauty and fashion photography in europe.

Thousands of pictures have been reaching us recently and that makes us happy. Every day we receive pictures of talented artists and for the next year we are looking for your works. Whether fashion designers, photographers, models or stylists - in our business is hidden a lot of talent and we want to promote. Our editors are busy working on our new website which will be published soon. There will also be changes in the design of the magazine. We will keep you up to date. We will also be increasingly active in the Asian region in the near future. Submissions for images are only possible via kavyar, as we receive too many emails every day and it is not possible to answer them all. Only our Ambassadors with a personal contact have the possibility to send pictures via eMail.
